

Getting the most out of the World Wide Web

Student Name _____

The following steps are to help you practice for yourself the tasks your teacher has just shown you. You should check off each step as you complete it. When you are finished, hand this checklist and your completed Word document to your teacher.

1. Log on and open an internet browser.	
2. Choose one of the search engines or databases you were shown and make it your home page.	
3. Using the search engine or database find a site that is of interest to you, perhaps related to a favorite hobby or sports team.	
4. When you find a suitable site bookmark it.	
5. Using this site copy and paste the complete URL, a portion of the text and an image into a Word document.	
6. Put your name on your document. Save it in your folder. Print it off.
