

IPT3 Lesson 6 Boolean Search Challenge

In this assignment you will choose your own topic and which search engine you will use. You will need to conduct 6 different searches using the Boolean operators. Each time you will need to write down the number of results you get in the table below. When you are finished open Excel and create a table like that at the bottom of this worksheet to record your findings.

Name:		
Search Topic:		
Search Engine:		Results
1st Search		
2nd Search		
3rd Search		
4th Search		
5th Search		
6th Search		

Name: Teacher		
Search Topic: Dalmatian Spotty Dogs		
Search Engine: Bing		Results
1st Search	spotty dogs	68,000,000
2nd Search	"spotty dogs"	1,460,000
3rd Search	"spotty dogs" OR Dalmatian	2,510,000
4th Search	"spotty dogs" NOT Dalmatian	1,480,000
5th Search	"spotty dogs" AND Dalmatian	293
6th Search	"spotty dogs" NEAR Dalmatian	4
